Veterans Bureau, etc., etc. For full particulars apply
to nearest Recruiting Officer, or write to Adjutant
General, War Department, Washington, D. C.

EYE AND EAR
The most delicate and important organs of the body are those which give us sight and hearing. It is therefore of great importance that they should be kept in good health. Dr. J. C. Smith, of New York City, has a special method of treating eye and ear diseases, which has been successful in many cases where other methods have failed. He writes: "I have treated thousands of patients with my special method, and I can assure you that it is the best method yet discovered." For full particulars, send for free booklet to Dr. J. C. Smith, 107 N. 3rd St., New York City.
